INSTRUCTIONS

- Loosen screw A a little with the Allen key until part C slides downwards.
- Affix the wall bracket B against the wall. Mark the location of the holes with a pencil.
- Drill the holes.
- Insert the dowels into the holes.
- Secure the wall bracket B with the screws provided.
- Place the pump of the refill in the location provided for this purpose on part B.
- Slide part C upwards until the bottom of the refill is correctly positioned in the soup plate.
- Screw the screw A with the Allen key to hold the assembly in position ready for use.

If existing holes are used, make sure that the pins already in place are strong enough.

In the case of flanged dowels, remove the dowels with a cutter.

A: Hexagonal screw stainless steel
B: Wall holder
C: Moving part

Each support is supplied with dowels and screws, as well as 3 allen keys with ring per carton of 12 pieces.

A shaped adhesive is also available. The installation surface must be smooth, clean and dry to ensure optimal adhesion. Position the adhesive on the wall and then firmly fix the support B. Apply procedure 6 to 8 to place the refill.
